

Part of the Dream Family

DreamWear gel pillows

Like wearing nothing at all*

DreamWear gel pillows has the soft feel unique in-frame airflow and innovative air tube connection at the top of the head that lets you sleep in any position. Now combined with the pillows cushion to give you a great, comfortable seal

- In a recent trial, users of DreamWear Gel Pillows reported being able to choose any sleep position they wanted.**
- Users reported less discomfort on their face, nose and nostrils with the DreamWear Gel Pillows mask versus their prescribed mask.***
- The minimal design gives you a full field of vision to read or watch TV before falling asleep. Comfortably wear your glasses.
- Gel Pillows gives you a right fit that works with almost any nose shape. Three sizes of nasal pillows give you a comfortable, custom fit.
